

What is the Letter of Authorization (LOA)?

The Letter of Authorization (LOA) is a simple document that we use to gather energy usage information. The LOA is Not a contract, but rather a state specific document, used for the sole purpose of attaining utility pricing on behalf of our clients. By signing an LOA, you are authorizing your utility company to provide the past 12 month history of energy consumption. This information is required by energy providers for competitive pricing.

Energy Pricing

Avion Energy will provide you with a **Free, No Obligation energy quote**. Your energy service will be bid on by qualified energy providers in your service area. Because we bring multiple accounts for bid each day, we receive prices rarely offered to an individual consumer who may be shopping their energy consumption once a year.

Our assistance is information oriented not sales driven with the end goal of providing our clients a no-nonsense customer driven utility pricing method. Our fee is paid by the energy supplier – not added to your bill.

To obtain Best Energy Pricing for your organization, we will need the following:

- **Completed Letter of Authorization.** This form is supplied to you by Avion Energy to gather meter information, service address, billing address and an authorized signature.
- **A complete copy of your current billing statement,** for the utility that we will be pricing.

Please complete a separate LOA for each utility i.e., natural gas and/or electricity, or service by more than one utility provider.

Avion Energy keeps our clients in Best Energy Pricing

Avion Energy can offer the most competitive energy pricing for fixed and variable rates. We keep a pulse on the energy markets and will research your needs and find you the best available rates at no cost to you.

We seek a long term relationship not a one time savings event. If you choose to lock in your savings through a fixed rate for a specified term, at the end of that term, we'll go to work and find best pricing for you once again.

We save our clients money. Let us go to work for you, and make sure you're not being overcharged.
