

Avion Energy Offers Complete Energy Saving Solutions

Energy Deregulation Means Lower Prices for Business, Industry, Municipalities and any Large Commercial Energy Consumer. We Facilitate the Process and Maximize Your Benefits.

Avion Energy Group serves the deregulated energy marketplace by methodically researching the lowest electric and natural gas rates available from retail energy providers. Plainly speaking – our research translates into reduced commercial sector energy costs for our clients. We understand the energy markets and how fluctuations in the markets affect energy prices and your bottom line. Our expertise, resources and tools allows our representatives to efficiently initiate a **Free No Cost - No Obligation** energy rate analysis for our clients saving them time, effort and money.

Avion Energy can lower your operating expenditures and help you achieve your financial goals by soliciting retail energy providers who compete for your business. As a qualified broker in the energy management industry, Avion Energy can secure the lowest rates for our clients by establishing on-going relationships with retail energy providers (REPs). Retail energy providers are willing to give us their best energy rates because we are a major source of new customers who they are constantly seeking, given the new environment of energy deregulation.

Avion Energy is part of the expanding landscape of energy deregulation. We are an innovative broker offering commercial energy users significantly large reductions in energy expenditures. More specifically, we help business owners, organizations, municipalities, school systems and any commercial energy consumer, succeed by providing a service which can significantly improve their daily expenditures by greatly reducing electricity and natural gas costs.

Our Free energy rate analysis includes the following – it's part of what we do – so you never have to.

We meticulously:

- Conduct research on energy prices
- Review contract terms & conditions
- Qualify customer service
- Identify supplemental services
- Acquire lowest energy rates from Retail Energy Providers
